An introduction from our local councillors...

Dear Resident,

Welcome to this first “Saundersfoot Scene” leaflet published by the newly formed Saundersfoot Chamber for Tourism. The information it contains means that now everyone can be aware of events in this area.

Saundersfoot is an important seaside resort which twenty or more years ago could look forward to a tourist season from Easter to October. At present time it is a very different story, with a season of six to eight weeks during the school holidays and much effort is needed to attract tourists to this area at other times. This is the aim of the Saundersfoot Chamber for Tourism and I congratulate them on their initiative in setting up this venture and hope they achieve everything they set out to do. May I wish the group every success.

Rosemary Hayes
County Councillor for Saundersfoot

And a word from our chairman...

It is with great pleasure that I welcome you to our first edition of the “Saundersfoot Scene”. For the past year we, as a group, have had enormous fun participating in the development of community based events for the benefit of local residents and visitors. This work has been done with the full support of the Millennium Committee.

Little did we realise when we volunteered as a small group to plan, finance and organise the Christmas Market, that we would create the environment to form the Saundersfoot Chamber for Tourism. Our aim is to create the environment to:-

- raise the standard of the tourism product
- foster a spirit of cooperation and communication in all aspects of community life
- to make Saundersfoot a village for all seasons

This past year we have shared success with many creative and fun events - the Barn Dance, Dog Race, Cawl Cooking Championships of the World, Christmas Market and New Years Eve Spectacular. We plan further events in the coming months and will keep you informed through this publication.

Andrew Evans
Saundersfoot Chamber For Tourism

Dear Saundersfoot villagers and welcome visitors,

It gives me great pleasure to help launch the first edition of “Saundersfoot Scene”.

I wish the newly formed Saundersfoot Chamber for Tourism well as they are striving to achieve. I hope you will support the Millennium Festival and all the other events organised throughout the year. Saundersfoot experienced a renaissance in 1999 and I know that with everybody’s support 2000 will build on that success.

So in conclusion please enjoy the magazine experience what the village has to offer and continue to support the forthcoming events.

Phil Baker
Chairman Saundersfoot Community Council

Saundersfoot Forum News

In November 1999, the Community Council in conjunction with *S.P.A.R.C* set up a future search exercise, which would involve the residents of Saundersfoot taking part in a forum with local organisations to generate ideas for the community development in the new millennium.

The thought was to update the Saundersfoot 2000 Action Plan produced in 1991 and project the communities desires for the next twenty years. To facilitate these views and ideas a two-day seminar took place on the 11th/12th March this year.

Under the auspices of Wendy Paine (Community Liaison Officer) many new ideas were aired. Since this meeting there have been two further public meetings, with more planned for the future, the most recent of which took place in the Regency Hall on the 9th May, when over eighty people attended. A large number of the youth of Saundersfoot also attended the meeting and served as a reminder to those present that thought must be given to the needs of the younger generation in the village future.

Participants have been organised in ‘stakeholder/action plan groups’ under a number of headings:

- Business/Tourism
- Sport/Leisure/Art
- Youth/Education
- Heritage/Environment
- Voluntary Orgs./Community/Faith

Sixty-one people signed up to these groups. Each group will now produce a report for a meeting to be held on the 27th June in the Regency Hall. It is planned after this meeting to produce a draft action plan which will be circulated to all residents for comments and views. Once this document is finalised it should be an accurate representation of the community’s needs and aspirations and will act as a blueprint for the future development of the village.

As this project develops we will endeavour to keep you informed, but we do recommend that if you have any thoughts or ideas, then please make every effort to attend the public meetings and share your thoughts with everyone.

*S.P.A.R.C. = South Pembrokeshire Partnership for Action with Rural Communities.*

**YOU CAN’T PARK THAT HERE!!!**

There are several car parks in and around the village. By using the car park at Coppet Hall, which is situated on the seafront on the outskirts of the village, one can walk through the old railway tunnel and wander into the village along The Strand.

The Regency car park is a pay and display car park and has disabled spaces and can be reached via Milford Street. This is central to the village and close to all amenities.

Directly opposite is the privately run Cambrian Hotel car park, which also allows parking for non-residents.

The main car park for the village is situated on the Harbour. There is also limited free parking along Frances Lane adjacent to the village school.

SAUNDERSFOOT SECRETS!
One of the nice aspects of Saundersfoot, especially when walking around the village are the pleasant surprises that await you. For instance the Stammers gardens and tearooms must be one of the best kept secrets. To have such beautiful and tranquil gardens almost in the village centre is a major delight.

Another little known fact is that the first heavier than air flying machine was conceived, built and flown by a local man, Bill Frost, who predated the Wright Brothers by a number of years. More on this in a future edition...

THE STRAND

This street was formerly known as Railway Street until the early fifties. Its name was changed to avoid the misconception that the village railway station was located down this street. In fact a railway did run along the street from the harbour to Wiseman’s Bridge and Steppside coal mines and iron ore workings.

When walking along The Strand two black lines in the centre of the road, depicting the route of the old railway and reminding one of the village’s industrial heritage.

It is in The Strand that you will find the village cashpoint, situated at the HSBC bank. There are several access points to the front beach along this street. It is not recommended to take your car down this road during the height of the summer season as it is a No Through Road and there is no parking facilities.

Dolls Houses & Miniatures
Needlecraft & Local Crafts

Pollyanna
Shop & Tearoom
Tearoom & Garden also accessible from beach

The Strand, Saundersfoot
There are a wealth of shops and services along The Strand. The village Chemist is situated down here. Not to be mistaken for the Old Chemist Inn which is often referred to as 'the Chemist' by the locals.

There is a self-service laundrette, plus a dry cleaning agency along here and at least two shops selling local crafts and another which stocks local prints and paintings. An ideal moment of your visit to Saundersfoot.

Perhaps you would like to try one of the tearooms, and relax with a cup of tea while overlooking the activities on the beach.

Saundersfoot Harbour

If there is one comment that captures the essence of Saundersfoot Harbour, it is to be the one made by a recent visitor to the village: “There’s never a dull moment!”

This sentiment was expressed in the first year of the new Millennium, but the same comment could have been made at any time during the 170 years since the harbour was first built, in 1829.

It was then that the small fishing village of the late 18th century was transformed into a thriving industrial port, exporting high-grade anthracite by sea from the local collieries. The early 19th century also saw the development of rail links from those mines to the harbour, where the trains off-loaded their cargo onto a variety of seagoing vessels.

Today, there are no trains, no railway lines, no collied-on-coasters and no anthracite, but Saundersfoot harbour is still an interesting place to be.

For those who want to investigate its industrial heritage, there is a well-established ‘Miner’s Walk’, which follows the route of the old steam trains from the former mines to the harbour and the Old Coal Office, or Barbecue building, Saundersfoot harbour!

which is now a tourist information centre. But for those who simply want to sit and watch the world go by, there is no better place, as the harbour provides a lively and colourful focal point for locals and visitors alike.

With a thriving sailing club, a well-used dinghy park and easily accessible launching facilities, the Saundersfoot boating scene is always buzzing, whether local boat owners are involved in cleaning, painting, launching, sailing or racing their cherished craft. Other waterborne activities include sailing, swimming and powerboating, while a thriving whelk fishing industry also generates considerable interest among passers-

But the jewel in the harbour’s seasonal crown has to be the flotilla of fishing and pleasure tripping boats. Once housed in a variety of colourful vans near the harbour wall, the booking offices can now be found on the walkway below the fish market, where a wide variety of trips is offered. Among them are deep sea and mackerel fishing trips, powerboat rides, trips round Caldey Island, seal and bird watching excursions, trips round the bay and various other pleasure cruises.

All of which reinforces the visitors original comment that there’s ‘never a dull moment’ on Saundersfoot Harbour!

LEISURE ACTIVITIES IN SAUNDSFOOT

The village offers a number of sports facilities for the young and not so young. There is a flourishing bowls club with a splendid new clubhouse overlooking their green where visitors are made welcome.

Adjacent to the Bowling Club is the booking office for the tennis courts and putting green. Equipment for both the tennis courts and putting green is available for hire. Opening hours are 9am to 8pm weather permitting.

Close by is a well equipped childrens play area which will keep any energetic youngster happy for many an hour. Seating is available for weary parents while the children play.

Saundersfoot’s beaches offer safe bathing for all ages. While if you wish to explore the numerous rock pools reached via the back beach behind the harbour you will find they offer a host of opportunities to study many aquatic creatures.

Saundersfoot Sailing Club, to be found on the harbour offers sail training on Saturdays with dinghy racing on Sundays and midweek evenings, tides permitting.

You can also take advantage of a variety of waterborne activities from the harbour, including cruises and fishing trips.

Coastal Cottages of Pembrokeshire

www.coastalcottages.co.uk  e-mail: info-desk@coastalcottages.co.uk

Open our Cottage Life 2000 magazine to discover over 500 outstanding properties located in the most beautiful areas of the Pembrokeshire Coast National Park. Choose your holiday from a range including a beachside castle, cliff top lighthouses, manor houses, farm and fisherman’s cottages on safe sandy beaches. With luxury and comfort of paramount importance, all our properties are quality graded to ensure the highest standards are maintained. Children and pets especially welcome. The seasons may change, but our quality, welcome and service never does.
